

# CORBY

## Of WINDSOR

New for 2011, Corby of Windsor introduce our latest selection of electrical products. Inspired by the world's favourite trouser press these products deliver both durability and functionality. Featuring key design elements from the press, we have also updated the look and feel using chrome and black with flashes of red in the operational buttons and LEDs. Each product is designed with speed and efficiency in mind and suggest classic travel and service.

These products have been specifically created for the hotel market and include essential anti-theft and auto cut-off features. As always these products will be manufactured to meet the high standards of craftsmanship and quality expected from Corby of Windsor.
