## HAIR DRYER COLLECTION

Electricals for the hotel guest room

# LOOKING GOOD

With decades of experience in designing and manufacturing electrical products for the hotel industry, we understand what our customers require of us. Our products are designed to stand the rigours of hotel and hospitality use and our customers appreciate that value is best analysed over the cost of a products whole life cycle. Our 3 year electrical guarantee supports this philosophy.

## 3 Year Guarantee

3 Year Electrical Guarantee applies to all mains operated electrical items.

## Stratus 1800W Hair Dryer

New to the range, the Status has already been introduced to some of the world's finest hotels.

# YOU'RE IN CONTROL

With up to 2000W of hand-held power & heat, it's important that hair dryers are used correctly. Unfortunately, not all guests feel the same way, which is why Corby offer Trigger Activated solutions for hoteliers who would like that little extra piece of mind.

## Bedford 2000W Hair Dryer

Designed with a convenient folding handle, the Bedford 2000W hair dryer is the most powerful hair dryer Corby of Windsor supply.

### TRIGGER ACTIVATED

Specially designed for hotels, the Stratus hair dryer works on trigger activation for guest safety. The trigger activation button is easy to use and friendlier to the environment.

# ICONIC & IONIC

As a 90 year old brand, it's important to keep up with ever changing trends & technology. Ionic technology provides a more effective way to dry all hair types. The negative ionic charge helps retain moisture, resulting in smoother, healthier looking hair with less frizz.

## British Designed

Our specialised range of hotel electricals & accessories is ever-evolving alongside styles & trends we see around the world. This is why we are confident we can accommodate any guest room environment.

## Ionic Technology

Ionic technology provides a more effective way to dry all hair types.

#### Anti-Theft

Corby of Windsor offer multiple hard wired hair dryer options. These are securely fixed to a wall and connected directly to the hotels power supply. These are a great solution for hoteliers looking for extra security.

## NICE & DRY

The Kendal & Dalton hair dryers are a great examples of form & function. They're trigger activated, have an integrated filter and an easy to use control switch. For additional security, an integrated wall option such as the Kendal is recommended.

#### Dalton 1600W Hair Dryer

The Dalton's ergonomic handle, combined with its sleek black & chrome aesthetic, is why it's specified in many leading hotel groups around the world.

# SLEEK STORAGE

Corby of Windsor offer a range of storage solutions that can be used for the various portable hair dryers. Most Corby hair dryers feature a specially coiled cable, which makes it much easier to store than conventional hair dryers. For example the Stratus Drawer Mounted Holder is designed to uniquely store the product so it is presented like it has never been used before.

### Coiled Cable

Coiled cable hair dryers can extend from 0.8m to 2.1m in length. This makes them easy to store when compared to conventional hair dryers.

### Folding Hair Dryer

The Bedford 2000W hair dryer has been designed with a folding handle. This enables it to be stored in spaces up to 50% of its original size.

### Bromley Hair Dryer Bag

Made from a soft yet durable material, this accessory discretely stores & protects any hair dryer within the Corby range.

# CREATIVE COMBINATIONS

Create your own combination to best suit your room design with our range of portable & wall mounted hair dryers. You can decide which best suits your environment. Simply choose your hair dryer and select a storage solution.

## LINTON 1200W HAIR DRYER

Available in 2 models, the Linton 1200W offers a basic solution that can be supplied as a portable or wall / drawer mounted option.

## Bromley Hair Dryer Ring
