ECO POWER

Corby kettles are designed specifically for hotels. Their compact design and lower wattage allows customers to boil water efficiently. The Canterbury is the latest addition to the range, combining a modern design with a classic twist.

Reduced Wattage

Compact Design + Lower Wattage = Efficient Boiling

0.6L Brushed Steel Canterbury Kettle

Its traditionally shaped spout is inspired by traditional English tea kettles, providing the perfect pour.

RELAX & SWITCH OFF

Corby kettles have been engineered with World leading Strix technology. Strix thermal controllers are manufactured to exceed 12,000 cycles of normal operation, so hoteliers & guests will have peace of mind that their kettles will perform.

Strix Tech
All Corby kettle are engineered with World leading thermal control technology.

Lift Off Reset
Corby Kettles are fitted with an additional safety system that only allows the kettle to dry boil once. This feature is designed to keep both guests and hoteliers safe if a kettle is left to dry boil unattended.

STAINLESS STEEL DRIP TRAY

INDUSTRY STANDARD

In 2010 Corby of Windsor introduced a concept that removed the need for saucers. Cups and saucers are typically used together when serving hot drinks. In a guest room, saucers are an another item that require cleaning and replacing if damaged. Research suggested that the majority of guests only used a saucer to place their wet spoon upon. We decided to create a solution for this.

Buckingham Standard Welcome Tray
Shown with the 1L Buckingham kettle

British Designed

Our products are designed by our UK based team of product developers in collaborate with international engineering teams. The team examines all aspects of construction, materials and 'life testing' to ensure we have the best possible offering in terms of value & serviceability for hoteliers.

DESIGNED FOR HOTELS

We understand how a kettle should perform for guests and house keepers which is why Corby kettles are manufactured with integrated concealed heating elements that are easy to clean and maintain. The Canterbury kettle range has been uniquely designed with an extra wide opening that is easy to fill for guests, but more importantly easy to clean!

Wide Opening

The Canterbury kettle range features with an extra wide opening offering benefits to guests and house keeping.

Ascot Mug Tray

Finished in black melamine.

Natural Wood Welcome Trays

These are constructed from 25mm hardwood and are available in 3 colours: light wood, dark wood and black.

Epsom Hospitality Tray

Shown with the Thames sachet holder in black

THE PERFECT BLEND

Our in-house team of designers have worked with Architects, Interior Designers and furniture manufacturers to create an attractive and versatile range designed for hotels. From independent trays & sachets holders, to fully integrated solutions, Corby of Windsor are confident in providing the perfect combination for your hotel guest space.

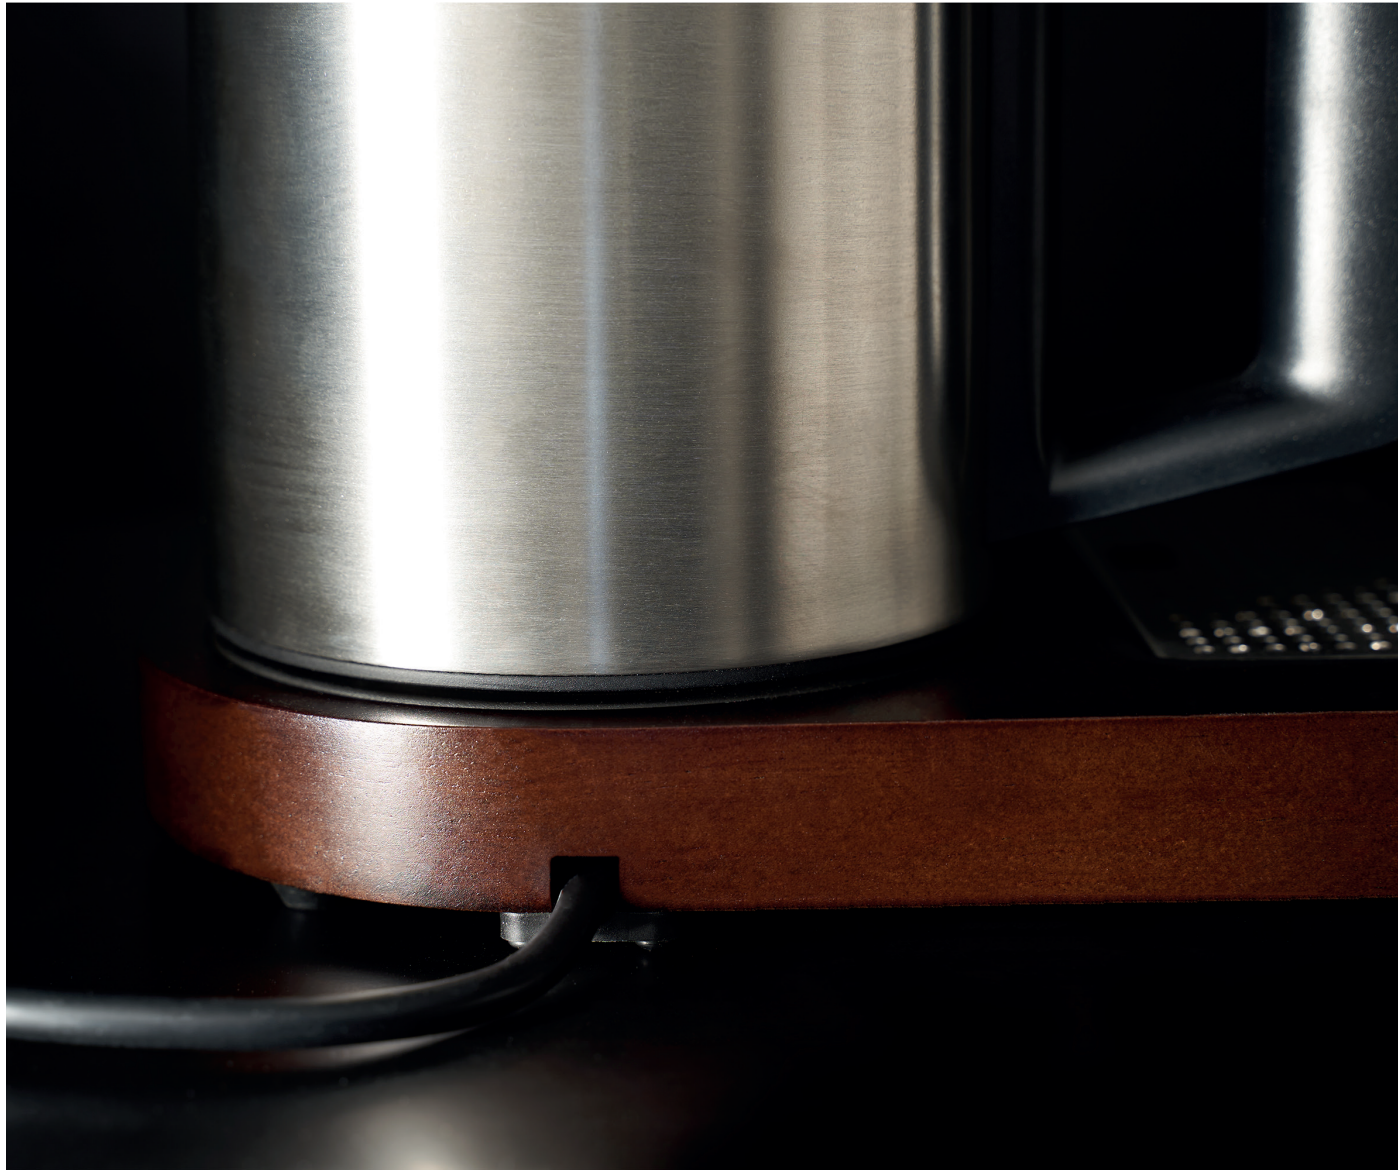

Black Wood Richmond Butler Tray

Shown with 0.6L Kensington kettle in brushed steel.

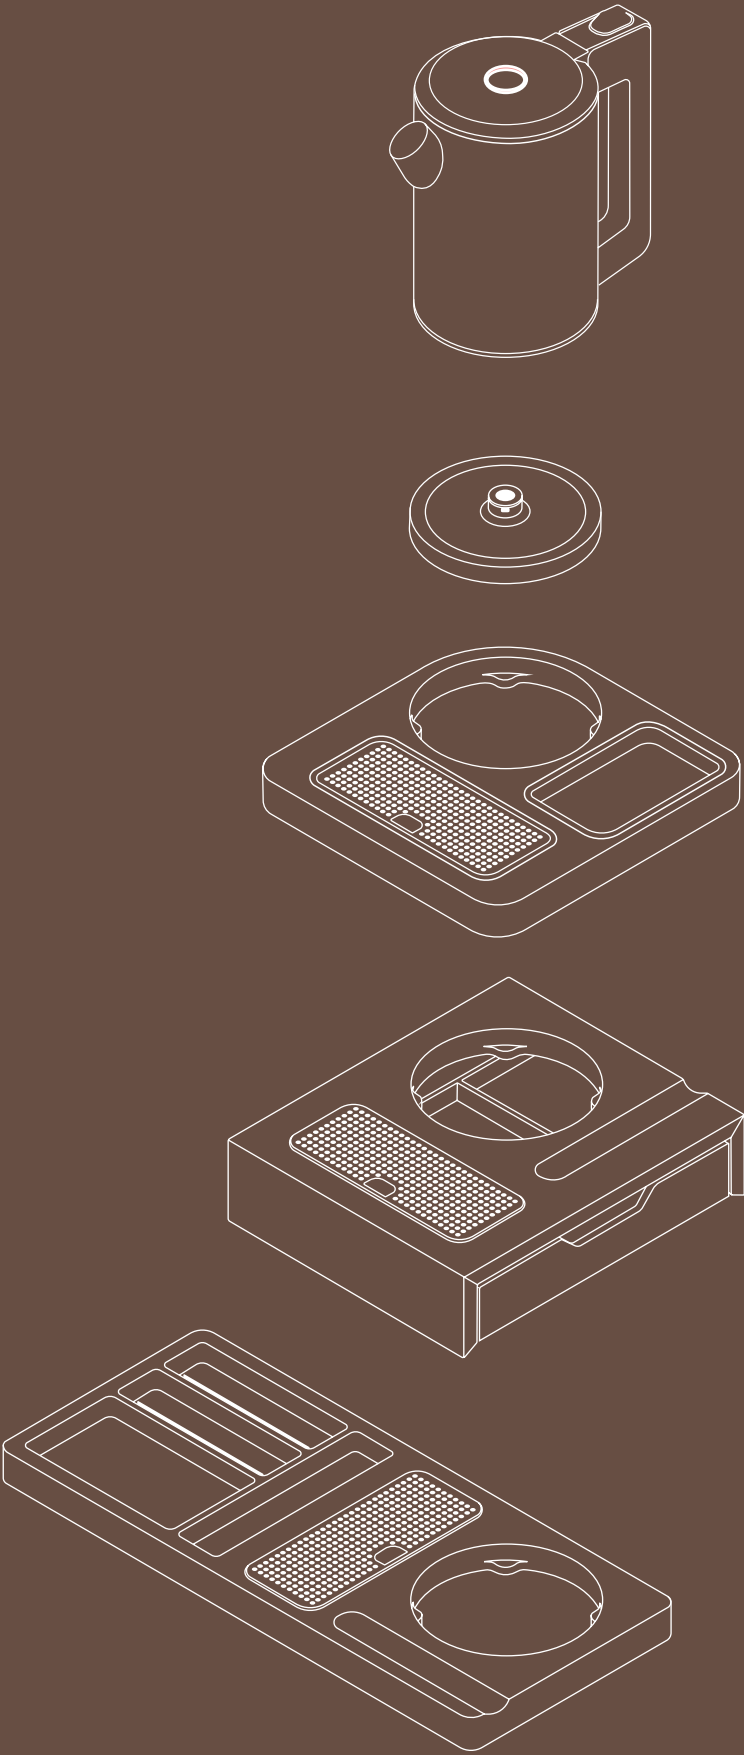

SECURE BY DESIGN

All of our welcome trays are tailored to fit Corby kettles and incorporate a security clip underneath the tray. This design helps prevent theft whilst presenting an attractive hot drinks solution to users.

Anti-Theft

All corby welcome trays come with an anti-theft security clip so kettles can fit securely to the tray.

Mix & Match

With 36 attractive combinations, the Canterbury Collection offers the largest range of kettles & trays
